EXECUTIVE SUMMARY

Originating from an IT background and transitioning into Digital Marketing, I possess over 9 years of battle-tested B2B experience across comprehensive marketing strategy, advanced SEO, full-funnel content production, visual design, on-site industrial filming, and multi-channel performance advertising. Currently serving as Head of Marketing for Tan Vien Dong System (specialized boatbuilding in Composite and aluminum alloy) along with two subsidiary firms, Kien Trung Long and Kien Phi (raw Composite material distribution). Previously spearheaded marketing for Tia Sang Telecommunications (IoT & digital transformation solutions). Concurrently architected automated content production pipelines using AI agents and authored practical digital publications. Career Objective: Marketing Leader role in a technology/SaaS firm where AI-driven operational automation creates distinct competitive advantages in speed and cost efficiency.

WORK EXPERIENCE

Head of Marketing / Marketing Leader

Tan Vien Dong System | Kien Trung Long | Kien Phi

09/2023 - Present

Manufacturer of Composite & aluminum alloy boats. Two subsidiaries supplying wholesale & retail Composite raw materials to factories and enterprise workshops.

Leading 3 specialists • Directly reporting to Managing Director • tanviendong.vn, tanviendong.net, kientrunglong.com.vn, kienphi.com.vn

STRATEGY & OPERATIONS

- Formulated and deployed the integrated marketing masterplan for all 3 sister brands, steering 100% of digital marketing initiatives.
- Managed 3 team members: task allocation, milestone tracking, and mentoring on AI-assisted standard operating procedures. Reported performance directly to the Managing Director.
- Concurrently drove targeted communications for 2 distinct buyer segments: custom boat buyers (high transaction value, long deliberation cycle) and industrial workshop owners / raw material wholesale clients (repeat transactional B2B).

WEBSITE & TECHNICAL SEO

- Concurrently administered **4 corporate websites** and 1 B2B enterprise business directory: continuous catalog updates, hosting/domain management, administrative access security, bug detection, and developer coordination.
- Conducted deep keyword research, formulated SEO roadmap, built topical content cluster architectures, executed technical on-page optimization, and systematically tracked keyword rankings.

CONTENT, CREATIVE & MULTI-CHANNEL DISTRIBUTION

- Produced 100% of marketing copy: SEO-optimized articles, high-converting social posts, technical Composite documentation, B2B email campaigns, video scripts, brochures, and product catalogues.
- Achieved complete in-house media autonomy with ZERO external production costs:** Designed banners, posters, and thumbnails using Photoshop paired with generative AI tools; personally conducted on-site photography and filmed manufacturing workflows at boatyards; edited and delivered optimized videos for Facebook, TikTok, and YouTube Shorts.
- Managed official Fanpages, TikTok, and YouTube channels: editorial calendars, scheduling, and engagement tracking. Executed targeted Meta Ads, Google Ads, and TikTok Ads on lean budgets, optimized by product lines.

SALES ENABLEMENT & DEEP MATERIAL EXPERTISE

- Possess hands-on technical expertise in Composite materials: polyester resins, gelcoats, fiberglass mats, vinyl ester, curing agents, release waxes, and acetone. Calculated material requirements from client specs, prepared quotations, and consulted clients on suitable materials.
- Designed professional quotation templates, sales enablement collateral, and technical catalogues; built and maintained a centralized digital marketing asset library on Google Drive with strict folder hierarchies.

AI Integration in Operations: Systematically embedded AI into copywriting, product visual generation, video editing workflows, and repetitive marketing operational tasks. Continuously tested emerging AI tools, packaging discoveries into practical, actionable SOPs for team execution.
